SUBSCRIPTION \$2.00 PER YEAR

CANMORE DEFEATS GLEICHEN IN TWO GAME SERIES

Last night Canmore defeated Gleichen 5-3 or 7-6 for the round

Not for the last four or five years have the Gunners given such a display of real hockey as they did Saturday night, when they defeated Canmore 4-2. For a long time it has been known that the club had the material for a crack team but for some reason or another they could not "get going." Last week in the final game in Strathmore the lineup was changed than the team "licked." Local fans who saw the game came back with glowing accounts that the team looked like a new club, this resulted in renewed confidence in the team and splendid crowd turned out, including fans who had not seen a game all winter. The world's most critical hockey audience was not disappointed with what they saw. They saw the Gunners display championship form as of old, showed they could get somewhere in hockey, yes, the fans were delighted with the playing; they rubbed their hands with satisfaction and talked their heads off for the next couple of days. This is written and put in type before the return game at Canmore is played in which highest total goals of the two games will declare the winner.

Gleichen completely dominated the play in the first period. Their system and style of play completely baffled the fast stepping Canmore squad, who out-played and outskated the Gunners her several weeks ago. Cam, Brown and E. Lester combined to open the scoring for Gleichen in a fine play when the former gave the goalie a tremendous cheer from the fans. Canmore goalie was completely out of the game. The pace was so fast that the local players, on one occasion the Gunners got clear through the defense but could not budge the net. Wilson for the Gunners had four lone shots to stop while the Canmore goalie stopped five. The pace was very fast yet both teams played very carefully.

Early in the second there was face off inside the Gunner blue line and four Canmore players were in side. E. Brown got the puck and broke away fast followed closely by E. Lester coming to the lone defense man Lester got the pass, bounded in and taking his time beat the goalie. Shortly after this Wilson was called upon to make a sensational save in pile up in front of his net. Sandrell from Anderson scored for Canmore. Maynard and Marquardt each got a penalty but no damage was done while they were hollering. Cam, Brown gave a fine exhibition of how to kill time with the puck in centre ice. Canmore pressed hard and with one or two exceptions were kept well away from the Gleichen net.

The third period saw Gleichen score two goals in a row and Canmore a half minute before the boys were due to hang up their skates. E. Lester made the first counter from C. Brown. This was followed by a warm time in Gleichen arena when the Canmore lads pressed hard. Gibson received a penalty and again Gleichen played perfect defense. Getting back on the ice Gibson got busy and flipped the puck to Taylor who scored. W. Lester picked up a penalty and just as he got back on the ice Anderson from Kaleta scored. Anderson was parked in front of the Gleichen net uncovered and batted in a perfect pass. Seconds later the game was over.

Canmore lineup: Kadlin, McPherson, Wardrop, Kristian, Anderson, Sandrell, Kaleta, J. Gilowski, M. Gilowski, Spellen, Reva.

Gunner line up: Wilson, Maynard, T. Brown, Marquardt, B. Brown, C. Brown, E. Lester, W. Lester, Gibson, Taylor.

Referee: John Boutley

PEOPLES' LEAGUE WILL CONVENE THIS WEEK, CALGARY

Future activity and policy of the People's League of Alberta will virtually be decided during the present week. Organized only a short time ago, the League, on Thursday and Friday, is convening its first general meeting of its 46-member executive, representative of the entire province,

MRS. A. N. McLEAY IS HOSTESS MEETING U.F.W.A.

Mrs. A. N. McLeay was hostess for the U.F.W.A. last Thursday, February 25th with 14 members present. Mrs. J. C. Hucheson read December Bulletin on Peace. It was decided to leave the dues at \$1 the same as last year. Mrs. Oliver gave a splendid report on the Convention and handed back approximately \$11 for her allowance for the trip, which was passed on the Juniors to help with their finances.

The president reminded the members of the exhibits of handicrafts to be held on March 25th. Mrs. Calkins won the raffled prize, same being a cup and saucer full of chocolates.

The next meeting will be held at the home of Mrs. J. W. Hucheson on Thursday March 11th.

to discuss the general set up and potential affiliations.

From the meeting will emanate a definite program hanging on one of the more important parts of the agenda, namely, "The advisability of appointing a committee to invite representatives of all political parties to meet them."

A copy of the tentative program for the executive meeting, mailed to members recently, indicates that committees will be charged with much of the work of the session. There will be a nominating committee, road program committee, one to deal with private debt and others to consider agriculture, public finance, government economy and unemployment.

On Friday, March 5th, the second day of the meeting various reports will be presented along with findings of the committees. A census will be taken of the same day is reserved for discussion of future policy of the league.

The first general gathering of the League's representatives will be welcomed to Calgary by Mayor Andrew Davidson.

J. Jesse Strange, Clarendon, prominent figure in western agricultural circles, a former director of Alberta Wheat Pool and one of the men responsible for setting up that organization has accepted election to the temporary provincial executive of the People's League. He represents the Sir Edward Beatty Challenge Cup, Chamber of Commerce Trophy, Victoria Rotary Club Rose

LADIES S.C. GROUP SPONSORING PLAY AND DANCE

The Meadowbrook Ladies Social Credit Group held their regular semi-monthly meeting on Thursday afternoon at the home of Mrs. John Wilson and Miss Isabel Wilson.

Miss Bell, the president, occupied the chair. The roll call was answered by "A Valentine Verse."

A Valentine box sponsored by Miss Neil McMillan was greatly enjoyed, after which the meeting adjourned. A very dainty tea was then served by the hostess, assisted by Mrs. Roy Crum.

A regular meeting of the Group will be held on March 4th at the home of Mrs. Fred Hamar, the hostess being Mrs. B. Richardson.

On March 12th, the group propose to hold a play and dance at the Meadowbrook Community Hall.

FARMERS INTEREST TRANSPORT RATES HELD PARAMOUNT

Appeal to the Dominion Government made to consider the interests of the farmer as paramount in legislation relating to grain transportation rates now before Parliament was made in a telegram forwarded to the Hon. C. D. Howe, minister of transport, by the North-West Grain Dealers' Association.

The message dispatched to the government by Line Elevator Companies who comprise the membership of the North-West Dealers' Association, reads:

"With reference to proposed Act to establish a Board of Transport Commissioners for Canada the Country Elevator Companies who are members of this Association and whose customers comprise more than 50 per cent of Western farmers respectfully draw Government's attention to danger that the fixing of uniform rates for steamship companies upon Great Lakes will tend to limit competition presently beneficial to cost of movement of Canadian grain, and particularly to possibility of additional burden upon western farmers, due to increased freight charges. Earnestly recommend that interest of hard pressed western farmers be considered paramount in any legislation or regulation directly or indirectly affecting grain transportation rates.

COUNCILLORS IN LENGTHY SESSION MONDAY NIGHT

A meeting of the Town Council was held Monday evening in the town office when the mayor and all the councillors were present.

A by-law was introduced appointing W. J. Pythian assessor for the year 1937. This was carried upon being read three times.

The estimates for this year were discussed and gone into in detail. A difference in opinion arose in connection with the levying for old accounts that had been levied for in previous years and not paid, as had these taxes been collected in those years the accounts would have been paid, as it now stands these are covered in the arrears of taxes carried forward. It was thought that certain percentages of these old outstanding accounts be levied for this year. After considerable discussion the estimates were left in the hands of the various committees to be brought in at a special meeting to be called later.

The question of the appointment of auditors for the present year came up, and it was felt that owing to the fact that the present auditors had been auditing the accounts for considerable time a change should be made this year. According to L. Collins will be advised that his services will be no longer required.

A discussion arose as to the payment of accounts. The mayor pointed out that in accordance with the Town Act the council may provide that accounts be audited before payment. It was decided the auditors will look into the accounts incurred since last of January 1937 and compile the audit of these accounts for the first meeting of the council in April.

The public works and sewer committee submitted. That private or party sewers be installed by the town only when the individual makes application in writing to the town and agrees to pay all costs in connection with the same. This includes the costs of all life required, whether on private property or on streets or lanes. In every case the required money necessary for the undertaking must be paid in advance to the town.

It was decided to offer the brick house near the highway for sale. In case there was no purchaser it will be taken down and the material sold to best advantage. Relief labor will be used on the job.

The well on the old James property

is to be tested and if there is a sufficient water it will be connected up to the water main.

Councillor Thompson asked to be relieved of the chairmanship of the Irrigation, fire, light and police committee, as his work would require him to be out of town a great deal. Councillor D. McDonald was appointed to the chairmanship.

Councillor McConnell drew the attention of the council to the condition of the cemetery, and asked if it would be possible to have all the old grass burned off early in the spring and the cemetery put in shape. The matter was left in the hands of the committee to be dealt with.

A letter had been received from the First Ranger Company thanking the council for the re-decoration and changes made in the Community Hall.

MISTAKES PAPERS DONT CATCH

The misprints of the press are at once the delight of the reader and the mortification of the newspaper office. Here are some:

Party who took pyjamas from the clothes line at 240 West 120 Street, please return and no embarrassing exposure will be made on my part—Oklahoma City News.

The evening was spent in an infernal way, a radio program being the main diversion.—Kentucky paper. Send mother a gift of hardly ever blooming rose bushes.—Ad in Sioux Falls paper.

Mary Promises to Sin for John D. Gets Dime. Headline in Sun-Telegraph.

assistants seen on the way to the fire department.—Alberta paper.

From his left ear to the corner of his mouth ran a scar, the result of a duet man years ago.

YOUNG PEOPLE FORM THE MERRY TEN CLUB

(By a Club Member)

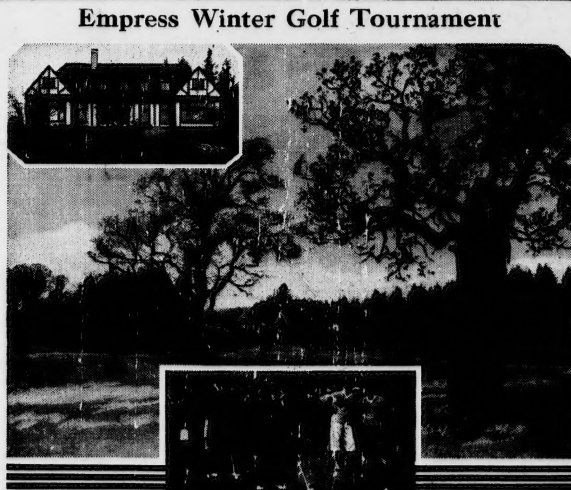

A club was formed by some of the young people of the town at a meeting held recently at the home of Mrs. J. Black. The members of the club are Agnes Boyd, Esther Downey, Betty Jane McQueen, Jean Black, Mary Le Roy Copeland, Jean Dafeo, Maureen Pineau, Audrey Service, Muriel Gilbert and Rosa Woods.

It was decided to call the club "The Merry Ten Club." Each member of the club voted for a president and Agnes Boyd got the office. Esther Downey was made secretary, Jean Black became the treasurer and Betty Jane was voted for chairman.

Meetings will be held every Tuesday from 4.30 to 5.30. Mrs. G. Evans, very honored, became the honorary president. Audrey Service is going to make a sign for our club room above Black's home. As we will have a little library, Jean Dafeo was picked to look after the books. Chairman E. McQueen will read the story the coming meeting. The dues are very low, only one penny a month. Four of the members were delegates to clean up the club room on Saturday.

Knitting or other work will be brought to each meeting to work on for fifteen minutes. The enrollment is expected to take place in about three weeks. The members are to make a club song. Muriel Gilbert is kind enough to supply the badges for members. The evening was closed by singing God Save the King.

The appeal to the local authorities to help the Safety First organization in the fight against unnecessary human life, ought to find a hearty response.—Leicester, Eng. paper.

Empress Winter Golf Tournament

While the rest of Canada is shovelling itself out of snowdrifts, Canada's only mid-winter golf tournament of an international character will be held on the Royal Colwood Golf Club Course at Victoria, B.C., from March 1 to 6. This is the annual Empress Winter Amateur Golf Tournament, now in its ninth year, which brings well on to 200 enthusiastic golfers from Canada, the United States and Europe into competition for a large number of valuable prizes, including the Sir Edward Beatty Challenge Cup, Chamber of Commerce Trophy, Victoria Rotary Club Rose Bowl, and Matson Inter-District Team Cup.

Favored by summer-like weather, the tournament is the high-water mark of the social season for the winter colony on the sunny southern tip of Vancouver Island. Victoria will be in festive mood for the event, while Colwood's beautiful clubhouse and the real Empress Hotel, with its gardens, conservatory, the United Garden swimming pool, will form an ideal background for the colorful social activities which mark the six days of tournament play. Included as added attractions will be a dinner dance and entertainment every evening in the Empress Hotel, with presentation of prizes at a Grand Ball on Saturday night.

Golf experts and dubs alike will find competitions suited to them in the week's play at Royal Colwood, a lovely course constructed on park land, 9,200 yards in length, with a par 70 that was broken only once in tournament play. Play will be divided into classes for both ladies and men, ranging from open amateur events and handicap matches to features that stress the social side of the grand old game.

Fish is a health food

● HEALTH... yes... because Canadian Fish and Shellfish are rich in proteins, vitamins, minerals and iodine. But health is not all. There is tastiness... the varied flavour of over sixty different kinds of fish foods. There is economy... the sound thrift of a food that gives you full value in healthful nourishment for every cent you spend.

Make "Any Day a Fish Day". Whether fresh water fish or seafood—fresh, frozen, canned, smoked, pickled or dried... you can be confident of the prime quality and flavour that have made Canadian fish famous throughout the world.

DEPARTMENT OF FISHERIES OTTAWA

Try This Appetizing Recipe

1 BAKED SALMON, 200g.

1 1/2 lb. one Canadian salmon

1 pint milk

1 egg and yolk

2 tbsp. butter

Grated onion

Free the salmon from bones and separate into flakes. Boil the milk and butter together without browning, and add one egg yolk and onion. Stir and season to taste. Pour over the salmon and serve very hot.

MARJON LYONHASE

Chop together cold boiled potatoes, one small onion, the contents of one tin of Canadian sardines (drained), fry with butter or beef fat until browned and serve with ketchup.

A Radio Renaissance?

The radio audience in Western Canada which has suffered extensively for some considerable time, and in recent months in inarticulate silence outside the home, has at last some reason to hope that some of the disabilities under which it has been suffering are about to be removed, or at least ameliorated.

The grounds for these hopes are based on the recent public utterances of Major W. E. Gladstone Murray, the imported general manager of the comparatively new set up, the Canadian Broadcasting Corporation, successor to the erstwhile Canadian Radio Commission, on the occasion of his first trip to the west since his appointment, which coincided with the re-organization of the radio governing body of the Dominion.

A year ago radio columns in the daily press were filled with lamentations and the gnashing of teeth of radio fans whose complaints of interference, inadequacy of programs and other causes of dissatisfaction with the status quo swelled into a diaphanous of discontent.

To the average Western Canadian owner of a receiving set it appeared that very little need was being paid to his complaints and little or nothing being done to remedy them and that the only reply to his expressions of annoyance was to double his contribution to the commission for the privilege of listening in to what he did not want to hear.

Since that time the chorus of disapproval seems to have diminished somewhat but this must not be construed in official quarters that discontent has disappeared. It would be more correct to diagnose it as a demonstration of tolerance on the part of the radio public. He hoped a new governing body an opportunity to study defects and disabilities in the hope that they will be able to remedy them and give the radio fans something more to their taste.

As intimated at the outset there is some reason to hope, in the light of Major Murray's statements that something is going to be done, and in the near future, to give Western Canadians a better break in the radio field than they have had hitherto.

It is true that Major Murray's public comments were entirely devoid of any information as to what steps will be taken precisely to remedy long-standing complaints but the general tenor of his published remarks indicated that he is fully aware of the causes of discontent on the prairies and an intimation that something is going to be done in an effort to more nearly meet the wishes of the licensees in this section of the Dominion was coupled with the interviews he gave the press.

The mere fact that recognition is given to the existence of complaints is half the battle and engenders a reasonable hope that solutions of some of the major problems are to be found within a reasonable time.

The following extract from one of his interviews shows that Major Murray has put his finger on some of the chief causes of annoyance to Western Canadian radio users:

"Major Murray expressed great interest in the difficulties of Western Canadian listeners to obtain their favorite United States programs through 'blanketing' of the radio stations by Canadian ones. He hoped a new allotment of wave lengths would follow, with special benefit to Canada, from the world conference on wave lengths to be held in Cairo in 1933. That conference likely would be preceded by regional conferences.

"Despite the existing wave length agreement between Canada and the United States, no agreement existed with Mexico and considerable difficulty was noted from that quarter. The C.B.C. manager also expressed his awareness of the difficulty of local listeners obtaining their favorite Canadian programs because of local programs by stations in their area.

"Major Murray said the average radio listener wanted variety with a fair measure of better class music.

"He announced the intention of the C.B.C. to take part in a scheme of exchanging producers within the Empire and with the United States. He mentioned particularly proposed exchanges between the C.B.C., B.B.C. and N.B.C. It was wise, he felt, for Canadian program producers to widen their experience through visits to other countries and to let Canadians know what was being done elsewhere."

While the points mentioned by Major Murray do not by any means cover the entire ground, the very fact that he is quickly assimilating the causes of difficulties and objections in the west, is to say the least encouraging and his attitude indicates that he is anxious and willing to meet the wishes of the western audience, insofar as it may be feasible.

Has Acres Of Nuts

Ontario Man Grows Over 300 Varieties On His Farm

Michigan can grow any type of nut that is produced anywhere in the United States, Europe or Asia, according to George Herbert Corson of Islington, Toronto suburb, who was in Detroit with 300 varieties to be shown the Boy Scouts. Corson, 77, has 29 acres of nuts on his Islington farm and more than 300 varieties. They range from English walnuts to paper shell pecans and from chestnuts to a hybrid of pecan and old-fashioned hickory nut.

"Nuts always bring good prices," Corson said. Years ago, Corson was swimming instructor at University of Toronto.

In the profane lexicon of the inconsiderate driver, there's no such verbage as "Pardon me."

Heavy Plane Purchases

World Will Spend Nearly A Billion Dollars For Aircraft This Year

The world will spend nearly \$1,000,000,000 for aircraft this year, a research expert of the aeronautics industry said—and four of every five of the 28,500 units to be produced will be fighting planes.

Howard S. Welch, vice-president and general manager of the Bendix Aviation Export Corporation, estimated that all nations would spend a total of \$911,000,000 for new planes, equipment, and spare parts in 1937.

It is possible to travel by canal from Antwerp on the North Sea to Masselot on the Mediterranean, through the heart of France.

Adversity is the only scale that gives us the correct weight of our friends.

Crippled Girl Is Clever

Blind For Years She Operates Typewriter and Plays Bridge
One of Ontario's most promising young persons lives in Tavistock. She is Lucille Lemp, "Babs" to her friends, blind, unable to walk and having normal use of only one finger on each hand. Miss Lemp is 19. She can write on typewriter, run a telephone switchboard, read and write Braille, compose poetry, play an autoharp and enjoy a game of bridge.

When she was two years old, a swelling was noticed in one of her toes. The toe was removed on medical advice, but this failed to halt the progress of a severe type of arthritis which spread through her body, crippling limbs and totally destroying eyesight.

Her typing is done on a special machine made about three years ago by her father, who does woodwork and fine machining for a hobby. The keys are covered with brass caps in which are raised up Braille characters to indicate the letters. Miss Lemp was thus able to learn by touch and has become quite proficient; her friends tell of receiving letters from her at Christmas.

"There isn't anything else you can do," the amazed reporter asked Miss Lemp after members of her family had gone over her various abilities.

"They forget I can knit," she said. She produced her decks of cards to show how she plays bridge. Each card is stamped top and bottom with Braille characters to indicate its value. Even after the stamping has worn nearly smooth she finds no difficulty in telling what is in her hand.

Scientific Research

Need For Greater Efforts Stressed By President Of Council

Necessity for greater efforts by Canadians in the field of industrial and scientific research was stressed by Major-General A. G. L. McNaughton, of Ottawa, president of the national research council, in an address to the Nova Scotia Institute of Science on the occasion of its 75th anniversary.

"We can by no means afford to regard the situation in Canada with complacency," he said, "but on the contrary we should use every endeavor to interest those concerned, and particularly our manufacturers, so that we may conserve what we have in the way of trade in our own markets and in the markets of the world in the face of the ever-intensifying competition from men, improved and cheapened products of other lands."

"We must put trained investigators to work to find other uses for our products in danger of being displaced, and we must find new products which can be made from available raw materials in order that stability of employment and of capital investment may be maintained, and particularly that the appalling waste and misery which comes in the trail of any decadent industry may be avoided."

Robot Gives Warning

Officers Of Anti-Aircraft Brigade Testing Remarkable Machine

Officers of an anti-aircraft brigade at Manchester, England, are testing a remarkable machine which gives warnings of air invasion. The "predictor," operated electrically, records the speed of approaching airplanes, their height, and the speed and direction of the wind. The information passes by electrical cable to the anti-aircraft guns.

Introducing The Office Cat

A notice on the bulletin board from William Allen White introduced Copy, a black tom-cat, to the staff of the Emporia, Kansas, Gazette. "Mice are overrunning the basement. I have, therefore, decided to add to our already extensive equipment one double-cylinder, T-model, repossessed cat. Be good to the cat! Don't let him feed in the melting-pot and don't throw slugs at him for walking on the keyboards of the linotypes. The girls in the front office will feed him."

Judge: "Your wife says you struck her, Uncle Josh. Have you any excuse to offer?"

Uncle Josh: "Ah suitably has, Judge. While Ah was prayin' fo' rain fo' mah crops, she was prayin' fo' fair weather 'cause she was gwine to wash."

On the planet Jupiter, a year has 10,000 days.

Although there are more than 450,000 known species of insects, it is believed that the unknown species comprise an enormous majority.

Buenos Aires is the third largest city in the New World.

HIS BACKACHE WAS UNBEARABLE

Kruschen Brought Him Relief From Pain

This man of 31 was prematurely aged by backache, which he should have been enjoying the best years of his life. Here he tells how Kruschen helped to restore him to health, after months of pain:

"I was in hospital for ten weeks, owing to kidney trouble. When I was discharged I felt like an old man, although I am only 31. If I stooped to do anything it was agony to straighten up again. Several people advised me to try Kruschen Salts. I tried them and found they gave me relief from pain and I felt better in every way. I cycle 28 miles a day to and from work, and shall keep up the daily dose of Kruschen because I can now do the journey to and from work and not feel any the worse for it."

When the internal organs cease to do their work properly, impurities begin to accumulate in the system, and cause troublesome symptoms. Kruschen Salts help to stimulate the liver and excretory organs to healthy, regular activity, and thus assist them to rid the system of harmful impurities.

Coronation Medals

Plans For Official And Local Souvenirs Announced In London

The British minister of health, Sir Kingsley Wood, recently despatched an official circular to local authorities, informing them of the revised arrangements for the supply of officially approved coronation medals.

The royal mint is to produce an official medal which will show the King's effigy on one side and the Queen's on the other. In addition there will be two classes of medals struck by the trade in this country. The first will bear the officially approved designs of their Majesties on one side and the King's effigy on the other. They will be described as medals with the officially approved portraits of Their Majesties.

The second class will have both sides designed by private medalists, but arrangements have been made under which the portraits of Their Majesties upon them may be "approved" by the Royal Mint.

Supplies of all three classes of medals will be anticipated by available by April at the latest.

SELECTED RECIPES

CALIFORNIA BREAD
Temperature: 450-530 degrees F.
Time: About 1 hour.

1 cup milk; 1 cup sugar; 1 table-spoon shortening; 1 table-spoon salt; 1 cake fresh yeast; 2 table-spoons lukewarm water; 1 cup Royal Household Flour; 1 cup Maida; 1 whole Wheat Flour; 1/2 cup candied orange peel; 1/2 cup walnuts, slightly chopped.

Method: Scald milk; add sugar, shortening and salt; cool. Add yeast cake dissolved in lukewarm water. Add Royal Household flour and 1 cup Maida. Knead thoroughly; continue adding Maida flour until mixture is stiff enough to knead. Turn out on floured board and knead until smooth and elastic. Let rise until double in bulk; knead in orange peel and walnuts. Let rise, but do not put in bread pan or small greased baking powder cans. Let rise. Bake in loaf oven for 10 minutes; reduce heat and continue baking. Makes 1 loaf. Entire time for making this bread is approximately 2 1/2 hours. Recipe by Mildred Zie MacKenzie Copyright.

EGGLESS MAYONNAISE

2 table-spoons evaporated milk
2 table-spoons lemon juice or vinegar
1/2 teaspoon mustard
1/2 cup Maida
1/2 teaspoon pepper
1/2 teaspoon paprika
1/2 teaspoon salt
1/2 teaspoon sugar
Combine the dry ingredients; add the milk and gradually beat in the Maida, then add the vinegar and beat until smooth. This dressing will keep indefinitely in a cool place.

Printed In Error

Because Jubilee Stamp Was Printed With Wrong Color, Collector Makes Nice Profit

A young stamp collector made a profit of about £1,500 (\$7,500) because three sheets of a 2½d. King George V. silver jubilee stamp were printed in error in Prussian blue, the wrong shade of blue.

The collector bought one of the stamps in a post office. Noticing the mistake, he bought the rest of that sheet and two other sheets. Then he approached a syndicate, which bought the stamps at 5s (\$25) apiece.

The Sahara desert is spreading southward at the rate of a half mile a year.

Ski-larks have been introduced in America on several occasions, but each time they soon died out.

Move Alienate Sweden

Hitler's Decision About Nobel Prizes Sweeps Away Good Feeling Chancellor Adolf Hitler's decision forbidding Germans to accept Nobel prizes in the future created a more unfavorable impression in Sweden than anything that has happened in Germany since the "purge" of June, 1934. By a stroke the pen Hitler has swept away most of the good-will toward Germany built up by Dr. Joseph Goebbels' propaganda department in the last few years.

The official German explanation is scorned and it is said that the mere fact that the Nazi government has taken this decision shows that it realizes that the prizes still constitute an important link between Germany and the outside world.

Even during the World War the work of the Swedish Nobel Committee, which awards the prizes for physics, chemistry, medicine and literature, was not interrupted, and Swedes remember with pride that they did more than any other people to prevent the world of science being submerged in the hatred and suspicions of the Great War. Between 1914 and 1918 the physics prize twice was awarded to Germans and twice to Britons and in the same period the chemistry prize was awarded to a German, Briton and American.

Since 1901, when the first prize was awarded, nearly a quarter of all the prizes have gone to Germany.

Build Planes In Canada

Big Boost To Canadian Aircraft Industry Is Anticipated

A big boost in the Canadian aircraft manufacturing industry is anticipated shortly as it is understood that if the Royal Canadian Air Force estimates are approved orders for airplanes will be placed wholly in this country. At present the Government plans to purchase more than 100 airplanes of various types. British designed aircraft will be built under license in Canada.

With British airplane factories working overtime to meet the unprecedented demand for fighting aircraft to place Great Britain on a parity with continental powers, firms in the British Isles are not in a position to accept orders from this side.

A short time ago Australia was compelled to place orders for aircraft in the United States owing to this reason.

The Ideal Man

He does not speak evil of others, even of his enemies, unless it be to themselves. He bears the accidents of life with dignity and grace, making the best of his circumstances, like a skillful general who marshals his limited forces with all the strategy of war. . . . He is his own best friend, and takes delight in privacy, whereas the man of no virtue or ability is his own worst enemy, and is afraid of solitude. Aristotle in The Ethics.

London is the world's best-dressed city, says a German expert.

7.30 p.m. Evening worship. Sub-
ject: "Some more unpaid dividends."

There are a number of people who
say that the world owes them a liv-
ing, and who apparently expect that
living to be handed to them on a plat-
ter because nature, science, invention
and the labor of others have produced
an age of abundance. May it not be
true that all this abundance with the
labor and thought that made it possi-
ble makes us all debtors and that we
owe the world something rather than
the world owing us.

FARMERS HELPED BY
WEATHER RECORDS

In order to have meteorological
records in convenient form for farm-
ers for reference purposes, certain of
these records, as reported by the ex-
perimental farms and stations of the
Dominion Department of Agriculture
throughout Canada, have been incor-
porated in the progress report of the
division of Field Husbandry for the
years 1931 to 1935. The report which
has just been issued is published in
two parts, one dealing with Eastern
Canada and British Columbia, and
the other with the prairie provinces
Manitoba, Saskatchewan and Alberta.
These meteorological reports have
been prepared in co-operation with
the Meteorological Service of Can-
ada.

As the experimental farms and
stations are located in the principal
agricultural regions of Canada, the
weather records in the report present
a fairly representative picture of the
climatic conditions of these regions.
Tables showing the average monthly
temperatures at the different stations;
the average monthly precipitation;
the average annual snowfall and
rain fall, and the average monthly
hours of sunshine are given. In
studying the information contained in
the report, it has to be kept in mind
that the average figures in each table
are the average for the month or
year, and have been calculated from
daily records. Deviations occur, and
the records in a given month or year
may be considerably above or below
the normal as presented. It is the de-
viation, from this normal figure which
most frequently affects the yield of
crops abnormally. In order to learn
the effect of variations in weather
upon crop yields in a given year,
it is necessary to have complete fig-
ures for the year in question, rather
than the average for a period of
years. Such figures are available at
all times in the office of the Field
Husbandry Division, Central Experi-
mental Farm, Ottawa.

LUKE'S LAUNDRY

LAUNDRY WORK. CLEANING
AND PRESSING. REPAIRING
DRY CLEANING A SPECIALTY

Town & District

Miss Selma Sammons of Calgary
has been visiting her friend Mrs. V.
McMann.

Mrs. L. H. Phillips will leave on
Friday for Winnipeg to visit her son
Clair, who is a member of the Royal
Canadian Artillery.

Word has been received by Mr. and
Mrs. B. Thiburne that their son
Bernard is in a hospital in Van-
couver suffering from a fractured
skull. The accident occurred in a log-
ging camp where Bernard has been
working. From the information re-
ceived it is stated he was struck on
the head by a chain swinging from
a boom. Latest reports state he is
doing as well as can be expected.

After being blocked with snow for
the past couple of weeks a snow plow
succeeded in clearing the main high-
way east from Calgary. For a week
before the plow got through cars have
managed to get to Calgary by de-
touring through fields.

Mr. and Mrs. David McBean an-
nounce the engagement of their eld-
est daughter, Katherine, to Mr. Floyd
A. Brown of Olds. The wedding to
take place the end of March.

No doubt about it, March came in
like a lamb.

The laziest man in the world took
the sulphuric acid bottle off the shelf
by mistake. Noted the error but drank
the acid rather than reach again for
the cough syrup.

COMING EVENTS

March 12—Play and dance at Me-
adowbrook.

MILD WEATHER

DELAYS PEE WEE
FINAL GAMES

The Pe Wee hockey finals between
the Canadians (Old Sun) and the
Americans started last week. The
first game resulted in a win for the
Canadians by a score of 2-1. Phillip
(Blake) Backfat scored in the first
period for the Canadians. There were
no penalties. In the second Elliot
(Schriner) Evans scored from Jackie
(Chapman) Reid in five minutes.
The third period saw the Canadians
score their second goal by Harry (Sib-
ert) Bullbear. Anton (Murray) Ris-
haug was penalized. Al Wilson re-
feree. The second game was played
Saturday morning at Old Sun rink,
and after playing overtime resulted
in a tie 1-1. The Canadians scored
their goal early in the first by Phillip
Backfat from Bull Bear. The Ameri-
cans made their counter early in the
second when Jackie Reid scored from
Elliot Evans from L. Gilbert. Reid
scored a penalty. Old Sun had five
penalties. The game was a close
one, but the Canadians were unbeatable.
No score in the third. Bullbear
received a penalty just before the
game ended. Referees: J.
House and J. Garland.

THE WORLD OF WHEAT

By H. G. L. Strange, Director of
"Crop Testing Plant."

A new wheat variety Reward has
beaten Marquis for the Canadian
championship at Toronto, and the
World Championship at Chicago!

In the winter of 1927 the cable
dispatches of North America car-
ried this news. Farmers seed growers
and scientific agriculturists were
greatly interested. All wanted to
know something about the new var-
iety.

Reward wheat, it seemed, gave ker-
nels that were unusually hard, ex-
ceedingly uniform and plump, of a
dark red color, and high in weight
per measured bushel. It attracted
the eyes of the judges, and has
done so at every grain exhibition ever
since.

Reward is the result of a cross
between Marquis and Prelude, made
by Dr. Charles Saunders in 1912, and
selected, as was Garnet, by Dr. L.
H. Newman, for test in 1923.

In addition to its magnificent ap-
pearance Reward is even better than
Marquis in milling and baking value,
and as well in from 5 to 7 days ear-
lier than Marquis.

Here at last, it seemed, was the
perfect wheat for the northern
country. Alas! tests eventually re-
vealed that Reward, backed in one
character—most important to the
farmer—its yield was definitely lower
than that of Marquis, and so it has
failed, unfortunately to fill the place
expected.

Following factors have tended to
raise prices: Chile purchases Argenti-
ne wheat. Some opinions that

Work Must Be Found

Through jobs men and women are insured against privation
and kept off relief. Jobs enable them to hold up their heads
among their fellow-beings, to be self-supporting, to maintain
homes, to educate and raise families.

With the exception of Alberta, the Dominion has made sub-
stantial progress in the past year in the matter of increased
employment. In fact, 60,000 jobs have been made available to
Canadians in 11 months, or thereabouts. On every hand—with
the exception of Alberta—there is a definite upward swing in
the employment pendulum.

What is our situation here? According to statistics issued
for the week of December 12, 1936, Alberta had 2,694 more
jobless than for the same week of 1935.

The fact is that the present policy of debt repudiation has
not increased employment, but has increased unemployment.
If our men and women are to be found jobs, as men and women
are finding jobs in other provinces of the Dominion, the credit
of Alberta must be restored.

This statement is one of a series written by The Mortgage Loans
Association of the Province of Alberta. The Association is
composed of 34 member companies. It represents hundreds of
thousands of small investments by typical Canadians. Its loans
to citizens of Alberta amount to some forty-five million dollars.
(The eighth statement in this series will be published in two weeks)

France faces considerable inflation. Too much rain falls in some parts of India. France announces tariff rebate on imported Durum wheat. Following factors have tended to lower price: Normal crop virtually assured in principal Argentine corn area. French cabinet issues decree to curb any rise in prices. Quality of southern hemisphere wheat crops well above average. Beneficial precipitation in U. S. southwest. Argentine wheat offered for resale at prices lower than quoted by shippers. Continued large wheat shipments particularly from Argentina.

The Call Says

Think what this won-
derful offer will mean
in enjoyment through-
out the whole year for
yourself and your fam-
ily. Magazines of your own choice and
this newspaper, packed with stories, time-
ly articles, helpful departments and col-
